

BREAST CANCER

AWARENESS for **Pets**

In dogs and cats,
breast cancer is called
mammary gland cancer.

- ▶ In unspayed female dogs, mammary gland tumors are among the most common and 50% are cancerous.

- ▶ In unspayed female cats, mammary gland tumors are less common than in dogs, but 85% are cancerous.

Prevention is spaying early:

- Before a dog's first heat
- Before a cat turns 1 year old
